orthocaps®
creating smiles

Ausgabedatum: 11.05.2019

The **TwinAligner®**
System

Because smiling
means living.

A beautiful smile is the key to success. No wonder more and more people today ask for invisible orthodontic treatment.

The Orthocaps® TwinAligner system makes this dream a reality. A modern, innovative and almost invisible system to achieve your perfect smile.

#orthocaps® is

- # Invisible
- # Effective
- # Comfortable

Gone are the days of metal fixed braces as the only tooth correction solution. The Orthocaps® **TwinAligner system** is a discreet, transparent and removable appliance that effectively and painlessly corrects tooth malpositions.

Orthocaps® also adapts to your lifestyle with **two different aligners for either day or night**. An innovative orthodontic treatment that is not only aesthetic and effective but also incredibly comfortable to wear.

Invisible
These transparent aligners fit the contours of your teeth. So invisible and aesthetic you won't even notice you're wearing them!

Effective
The thermoplastic material allows for precise tooth movement and guarantees visible results.

Comfortable
Our soft plastic provides maximum comfort. The result is painless tooth correction.

Designed for everyday use
Orthocaps® is made for daily use. The aligners are removable, practical and easy to clean.

From simple aesthetic correction to more complex malocclusions, Orthocaps® has a solution for nearly 90% of cases thanks to its system specifically tailored to patients' age and indication (children, teens or adults). Don't hesitate to contact your dentist or orthodontist to find out which Orthocaps® system suits you best.

#Who can use it?

"My big **tooth gap** had been bothering me for a long time, so much so, that I was conscious and hesitant to smile in company of strangers. After treatment with orthocaps®, my confidence has returned and finally I am proud to show my smile. That makes such a big difference in self confidence - at work and in life in general."

Alexander S. (27)

DIAGNOSIS: Anterior tooth gap/spacing, rotations and tipping.

TREATMENT TIME: 11 months

RESULT: A great smile and a really good boost in self-esteem.
